■ *Reducing costs, customer complaints and carbon footprints!*

Founded in 1996, DDM provides a sustainable and cost-effective approach to managing utilities in multi-unit properties through the submetering of electricity, water, gas, and HVAC. Our mission is to deliver accurate and transparent utility billing, empowering property owners and managers to conserve energy, drive down utility usage, and equitably recover utility costs from tenants.

DDM offers state-of-the-art submetering technologies and services tailored to the unique needs of commercial and residential properties. Our experienced technical team provides site evaluations, design and engineering of cutting-edge, smart submeter systems, specification and sales of equipment, and technical oversight of installations...

we're a one stop shop!

OUR CORE SERVICES

- Utility billing for electric, gas, water, and HVAC
- Time-of-use, over-standard, and after-hours billing
- Common area and building infrastructure allocations
- Utility budgeting forecasting and analysis
